

# Cabinet Component System™

The **Cabinet Component System™** is a modular, reinforced concrete panel and bracket system, which assembles in minutes to create an exceptionally strong and durable, ready to finish foundation for outdoor kitchen islands and appliances.

12' STR in Natural Stone

Unfinished STR with Bracket Close-up

The **Cabinet Component System's™** patent-pending design offers outstanding strength and rigidity, while creating a hollow structure that enables maximum use of the interior volume for storage. The solid, uncut panel configuration allows complete freedom and flexibility for any appliance layout. Standard kits may be combined or reconfigured to create custom island designs to fit any application.
